

Early Childhood Programs

We are thrilled about our highly anticipated line-up of dance classes specially designed for our Early Childhood students in the upcoming 2023-2024 season! At Dance Theme, we believe that dancing is not only a creative outlet but also an excellent way to develop confidence, coordination, and a love for movement from a young age.

Our dedicated team of instructors has curated a diverse range of classes that cater to the unique needs and abilities of children aged 2-5 years. Each class is thoughtfully structured to ensure a fun and engaging learning experience while nurturing your child's physical, emotional, and cognitive growth. We are confident that this season's offerings will ignite their passion for dance and inspire their imagination.

Dance Theme is an affiliated studio of the fantastic Ready Set Dance program in Edmonton. Ready Set classes are designed to teach dance skills while keeping preschool students stimulated, fit and most importantly ensure they have lots of fun! A strong focus of the class is developing the 3 C's: Confidence, Coordination, Creativity. The class builds dance skills and creative movement through specifically designed songs and music.
